Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I need my credit card approved quickly. • I have submitted all the required documents. • I hope my application gets approved without delays.	THINKS • Will my credit score affect my approval? • Is my income sufficient? • Why is the approval process taking so long?
DOES • Fills out the credit card application. • Uploads identity and income documents. • Tracks the application status online.	FEELS • Anxious about approval. • Hopeful for a positive result. • Frustrated if the process is delayed.
